PROFESSIONAL SUMMARY

Frontend Developer and Software Engineer with experience building responsive, user-focused web applications using HTML5, CSS3, JavaScript, React, Next.js, and TypeScript. Skilled in UI development, authentication workflows, API integration, and performance optimization. Strong understanding of responsive design, reusable components, and Git/GitHub workflows.

TECHNICAL SKILLS

Languages & Technologies:

HTML5, CSS3, JavaScript (ES6+), TypeScript

Frameworks & Libraries:

React.js, Next.js, Bootstrap

Styling & UI:

Tailwind CSS, Responsive Design, Flexbox, CSS Grid

Concepts & Development:

DOM Manipulation, Server-Side Rendering (SSR), Dynamic Routing, Reusable Components

Tools:

Git, GitHub

Other:

Debugging, Code Optimization, UI Consistency

PROFESSIONAL EXPERIENCE

Front-End Developer

TXRNX

November 2025

Technologies: Next.js, React, TypeScript, Tailwind CSS, Git

- Developed core frontend features using Next.js to improve interactivity and navigation.
- Implemented Server-Side Rendering (SSR) to enhance performance and page load speed.
- Built authentication workflows including sign-up, sign-in, and session management.
- Created dynamic event pages using routing, APIs, and reusable components.
- Designed responsive UI layouts with Tailwind CSS for cross-device compatibility.
- Improved usability through component optimization and interface refinements.
- Collaborated using GitHub with structured branching and pull request workflows.
- Participated in debugging and troubleshooting to ensure application stability.

Freelance Software Engineer / Frontend Developer

Self-Employed

May 2025 – Present

- Designed and developed responsive websites including a personal portfolio and multipage site.

- Built structured, accessible layouts using HTML5.
- Implemented responsive designs using CSS3, Flexbox, and Grid.
- Added interactivity using JavaScript, including navigation and form validation.
- Applied UI/UX principles to improve readability and layout structure.
- Managed version control using Git and GitHub.
- Performed testing and debugging to resolve functional and layout issues.

PROJECTS

Personal Portfolio Website

Technologies: HTML5, CSS3, JavaScript

- Developed a responsive portfolio showcasing projects and technical skills.
- Focused on clean UI, layout structure, and responsive design.

Multipage Interactive Website

Technologies: HTML5, CSS3, JavaScript

- Built a multipage website with dynamic navigation and responsive layouts.
- Enhanced user experience through JavaScript interactions.

Event-Driven Web Application (TXRNX)

Technologies: Next.js, React, TypeScript

- Developed scalable UI components and dynamic event pages.
- Contributed to authentication and performance optimization features.

EDUCATION

University of Lagos

Bachelor of Science (B.Sc.) – Psychology

Expected Completion: September 2025

CERTIFICATION

Front-End Web Development – Udemy
